

ASQ South Asia Team Excellence Award 2023

Tata Power Emerges as Gold Winner at ASQ South Asia Team Excellence Awards New Delhi, December 24, 2023 – Tata Power, a leading integrated power company, has clinched the prestigious ASQ South Asia Team Excellence Gold Award 2023 for their outstanding project titled 'Improvement of Flue Gas Exit Temperature.' The award recognizes and celebrates teams that demonstrate excellence in quality management, showcasing remarkable results through their innovative projects.

The winning project focused on the significant task of enhancing the Flue Gas Exit Temperature, successfully reducing it from 142.72°C to an impressive 138.53°C. The team employed cutting-edge tools, including the Multiple Regression Fit Model and Optimize Response tool, for deriving inputs for process/logic modification. Additionally, the implementation of an individual corner SADC Dam per Operation played a pivotal role in achieving the remarkable outcome.

The project's success is underscored by its tangible impact, resulting in substantial savings of 6.54 Crore/year for One Unit Operation. This achievement solidifies Tata Power's commitment to operational excellence, efficiency, and continuous improvement in their processes.

The ASQ South Asia Team Excellence Award ceremony witnessed the recognition of Tata Power as the Gold Winner, with Mr. Vipin Sondhi, Chairman NPQP, presenting the coveted trophy to the winning team. Mr. Anindya Sarangi, Director & Head ASQ South Asia, commended the team's exceptional efforts in achieving this milestone.

In addition to Tata Power's Gold Award, the event celebrated excellence across multiple categories. Eight teams were honored with Silver Category Awards, and 24 teams received Bronze Category Awards. These awards acknowledge the teams' dedication to quality management and their commendable contributions to the industry.

The ASQ South Asia Team Excellence Award ceremony witnessed the presentation of the Special Jury Choice Award to Ashok Leyland for their winning project, marked by its trend-setting agility, focused on capturing a significant share of the High Horsepower (250+) Truck (HHPT) market.

"We had an impressive pool of participants this year, with 8 deserving teams earning Silver Awards and 24 teams receiving Bronze Awards," stated Mr. Sarangi. "The competition was intense, and each team showcased their commitment to excellence. The live presentations provided a valuable platform for teams to exchange best practices and insights."

Tata Power's success in the ASQ South Asia Team Excellence Awards reinforces their position as leaders in the power industry, setting benchmarks through collaborative teamwork, innovation, and dedication to quality.
