

GLOBAL LEADERSHIP EXCELLENCE PROGRAM AMERICAN SOCIETY FOR QUALITY, ASQ

PRESENTS

SIX SIGMA MASTER BLACK BELT WORKSHOP

11th Dec-23rd Dec, 2017 at Delhi

LEADING TO ASQ's INTERNATIONAL (USA) CERTIFICATION

ASQ India introduces Business Excellence knowledge series to enhance your professional career, boost your organization's bottom line and serve the national cause – "Make in India" initiative.

About ASQ Master Black Belt

Embedding Lean Six Sigma management methodology into the corporate culture provides a distinct competitive advantage by enhancing the organizational and leadership capabilities for executing to strategy. This capability to drive Lean Six Sigma into the fabric of an organization's culture is further enhanced by the Lean Six Sigma Master Black Belts (MBB's) who serves as catalysts of change and strategic resources for driving enterprise wide improvements to maximize business efficiency and growth opportunities, thereby building the organizations profit capabilities in a sustained manner.

Master Black Belts wear different hats including acting as a change agent, combining analytical skills with creative thinking, facilitator, leader, coach etc. during an organization's excellence journey with a strong cultural foundation for excellence. To cope up with the rigors of an organization's transformation journey, especially in the face of the changing complexion of the competition, it is paramount for an MBB to acquire diverse range of skills in strategic change management and advanced statistical techniques for accurately interpreting the effects of the change forces and initiating the strategic countermeasures. The ASQ MBB program has been designed for creating leaders who can effectively drive change. It provides a world-class environment for learning the required skills through classroom lectures, case studies, practical application of statistical tools and live project presentations, all integrated into a holistic learning experience to relate participants to their actual work environment. To provide flexibility for working executives, outstation participants have option to attend this workshop through video link using WebEx as the platform. However the aspiring participants would **mandatorily be required to attend the classroom workshop session for the last two days** as all the program participants would make live project presentations, for final grading which shall impact their qualification as MBB.

It would help you to advance your career and boost your organization's bottom line through your mastery of problem solving skills leading to accelerated career advancement opportunities

THE HINDU Business Line

Quality Council of India inks MoU with US body

KR Srivats
New Delhi, Feb 6:

Quality Council of India (QCI) has joined hands with American Society for Quality (ASQ) to improve the quality of goods and services provided by Indian small medium enterprises (SMEs).

The MoU was signed by QCI Chairman Adil Zainulbhai and ASQ chief Amit Chatterjee in the capital on Thursday.

This alliance is part of strategic plan to implement and boost Prime Minister Narendra Modi's 'Make in India' initiative.

The ASQ Master Black Belt Workshop Program

The ASQ Master Black Belt Workshop is a niche program that teaches the right balance of technical and management skills that an MBB has to showcase so as to play a critical role in an organization's metamorphosis. Master Black Belts act as change agents in inculcating a culture of organizational excellence. They are experts in change management and advanced statistics and help in transforming an organization's business performance. Aside from guiding in project selection and reviewing projects, they mentor and teach other belts. One significant differentiator of a successful master black belt is their ability to coach the senior management. Laced with an exquisite melange of Conceptual Lectures, Case Studies, Application of Advanced Analytical Tools and Project Presentations, the ASQ MBB program creates the appropriate milieu for learning the subtleties of the Six Sigma approach from strategic as well as operational perspectives.
