In today's competitive market, it's often difficult to differentiate yourself from others at the workplace. So why not stand out from the crowd?

ASQ offers two certificate courses for students

- Lean Six Sigma Yellow Belt
- Lean Six Sigma Green Belt

These courses are based on the ASQ Body of Knowledge related to the Six Sigma certifications offered by ASQ.

What is Lean Six Sigma

Lean Six Sigma is a powerful set of tools and methodology for process improvement. It is recognized worldwide in organizations both large and small, across all areas of business as means to achieve business improvement. Many companies pay a salary premium for new hires with Lean Six Sigma expertise.

Why Lean Six Sigma for Students?

- * To learn problem solving methodology that can be applied both personally and professionally.
- * To learn how to determine the most critical factors that contribute to a problem.
- * Learn effective decision making based on an analysis of data.
- * Learn the difference between value and non-value added activities.
- * Learn about the dynamics of teams as they work to improve processes for internal or external customers.

Lean Six Sigma Yellow Belt

It provides an introduction to fundamental improvement tools.
