Modular Training Programs

ASQ plays a pioneering role in introducing various modular quality training programs, to promote quality practices and establish quality systems. There are many other modular training programs, apart from the above mentioned trainings, delivered both through public programs for working professionals and also for corporates made specifically to suit the needs of the organisation. A team of highly dedicated and experienced SMEs also provide project implementation handholding to organisations in different sectors on their continuous improvement journey.

Value Added Quality Trainings	Standards	Leadership Coaching
